KELLY HOPPEN

“A hot water tap was a no-brainer for me. It’s perfect for anyone with a busy kitchen and lifestyle. The food waste disposer is very convenient and makes sorting food waste much easier. They both save me so much time, they instantly became my favourite appliances in the kitchen.”

Kelly Hoppen. CBE

in sink erator®

PROUD TO BE IN PARTNERSHIP WITH

Kelly
Hoppen

The entire InSinkErator® portfolio of specialist kitchen taps and food waste disposers has been endorsed by renowned, multi-award winning, interior designer Kelly Hoppen.

Kelly Hoppen is well-known for her sleek and timeless approach towards interior design, which complements the modern, time-saving, convenient kitchen products offered by InSinkErator®.

Food Waste Disposers

InSinkErator® invented the world's first food waste disposer over 90 years ago. Today we remain the global market leader. We manufacture a wide variety of models, designed to suit all family sizes and needs. Neatly hidden under the kitchen sink, a food waste disposer is both a convenient and responsible choice for the modern home. It diverts your food waste from landfill and is a great alternative if home composting is not possible.

The Kelly Hoppen endorsed InSinkErator® portfolio also boasts an elegant collection of specialist kitchen taps. Designed to eliminate the need for a kettle they are available in an array of shapes and on-trend finishes, including Brushed Gold or Velvet Black. The top-of-the range 4N1 Touch Tap instantly and safely dispenses filtered steaming hot water, filtered cold water and regular hot and cold water from one combined fixture.

SHOWROOM COLLECTION

Designed for modern living and to suit any style of kitchen, all products in the Showroom Collection embrace special features and finishes and can be relied on to provide great benefits - especially to people with busy lifestyles.

The Showroom Collection is available only through our exclusive distribution partners.

“ The InSinkErator® Evolution 250 premium food waste disposal makes life easier: this powerful unit grinds up the bulk of your organic waste, taking it out through the standard drain where it’s recovered and put to good use. If you have the room, then this product will change how you deal with food waste.

” David Ludlow. Trusted Reviews

A food waste disposer is the perfect alternative to the food waste caddy

An InSinkErator® food waste disposer is a sustainable kitchen appliance offering a hygienic, safe, and practical solution to managing food waste in the home.

Leftovers from food preparation or meals are safely ground into minute sized particles, without the use of blades, thanks to the innovative system of stainless-steel grinding rings. The food waste is simply rinsed away safely down the drain, through the standard plumbing.

Our food waste disposers are self-cleaning and made to last from premium materials. They are designed to sit neatly under your sink, with the further benefits of saving space and improving cleanliness in the kitchen.

In an attempt to boost recycling and protect the environment, the Government has announced separate food waste collections for every UK household by 2023. Separate food waste collection does mean smelly food waste collecting in your food waste caddy.

Installing an InSinkErator® food waste disposer allows food waste to be disposed of instantly, eliminating the need to use an unhygienic and smelly food waste caddy, where home composting is not possible.

A food waste disposer is a must have eco-gadget for the home

Whilst prevention of food waste is key there is always unavoidable waste from food preparation or leftovers. As a result, all too often in a throw-away society, food waste ends-up in landfill where it contributes to the release of harmful methane into the environment. Instead of going to landfill, food waste can yield valuable biogas and other vital soil nutrients which can be recovered at the wastewater plant.

Your food waste is ground into tiny particles by your InSinkErator® disposer...

These are flushed through your plumbing to wastewater treatment...

Where they can yield valuable biogas

...and fertiliser for agriculture

Showroom Collection food waste disposers

Air switch included

The remote push button next to the sink uses air pressure to activate the food waste disposer. Offering a full range of premium finishes (chrome, brushed steel and matte black).

#InSinkErator

InSinkErator 4N1 Touch tap dispenses filtered cold water, in addition to filtered instant steaming hot water and regular hot and cold water. Add the NeoChiller for perfectly chilled filtered water.

InSinkErator® instant hot water taps - the perfect addition to your kitchen.

Our premium instant hot water taps are manufactured from high quality materials that offer filtered steaming hot, regular hot & cold, filtered cold and filtered chilled (optional) water. They're simple to use, but they're also safe and easy to install. All InSinkErator® taps come with a locking safety lever for peace of mind.

- Filtered steaming hot

Safety is a priority for us too

All of our instant hot water taps are protected by a locking safety lever. The lever that controls the steaming hot water needs to be pushed down and pulled towards you. There is also a spring back feature that immediately shuts off the hot water when the lever is released, so there's no chance of steaming hot water running unattended.

Our instant hot water taps have a fully insulated spout that is safe to touch even as steaming hot water is flowing through it. All of this combines together to provide peace of mind for children or more vulnerable members of the family.

The perfect temperature for tea

The UK Tea and Infusions Association state* that the perfect temperature for black tea is between 90 to 98°C and for green tea it's always around 80°C.

The NeoTank features a digital adjustable dial that allows you to set the water temperature in tank between 88° and 99°. So you really can make the perfect cuppa with InSinkErator®.

“ I love the all-in-one design of this tap, giving everything from boiling water and regular hot and cold to filtered water without cluttering the sink ”

David Ludlow. Trusted Reviews

DESIGNED & MADE IN ITALY

Premium 4N1 taps

Filtered cold water at the touch of a button. Along with filtered steaming hot and regular hot and cold water.

Our 4N1 taps offer the ultimate in kitchen convenience. As well as dispensing regular hot and cold water, they also offer filtered steaming hot and cold water.

Filtered steaming hot water is perfect for instant hot drinks and helps with numerous kitchen tasks, whilst the filtered cold water means no more bottled water or filter jugs.

- Touch button technology for filtered ambient water
- Smooth laminar flow of instant steaming hot water up to 99 degrees*
- Tap comes complete with space-saving tank and filter
- Five year tap parts and labour limited warranty
- Two year tank parts and labour limited warranty
- Premium Italian design and manufacture
- Choice of three designs and finishes - contemporary L shape, the classical J shape or the industrial U shape in either Chrome, Brushed Steel or Velvet Black

Filtered cold water flow at the touch of a button

Now available with NeoChiller technology
You can now choose to have your cold water refreshingly chilled and filtered thanks to the InSinkErator® NeoChiller which sits alongside your NeoTank under the sink.

*Water temperature in tank

Premium 3N1 taps

Hot, cold and filtered steaming hot water. Luxury and convenience at your fingertips

Premium Italian design with exclusive finishes and the highest manufacturing standards combine to create the superb 3N1 range.

- Replaces the kettle and streamlines your kitchen worktops
- Smooth laminar flow of instant steaming hot water up to 99 degrees*
- Time saving
- Tap comes complete with space-saving tank and filter
- Five year tap parts and labour limited warranty
- Two year tank parts and labour limited warranty

“
The quality and value of the 3N1 hot tap from the Showroom Collection make it an essential for every kitchen.

” **Graham Robinson.** Halcyon Interiors, London.

The L Shape and the J Shape

Only available from the Showroom Collection, the 3N1 L shape is available in Brushed Gold and the J Shape in Rose Gold. Other special edition finishes include Chrome, Brushed Steel and a combined Chrome and Jet Black spout finish.

*Add NeoChiller to your Moderno HC3010 hot and cold and HC3020 hot and cold side taps for perfectly chilled filtered water.
RRP: £579

All InSinkErator® side taps come with a compact NeoTank and Water Filter.

NeoTank and NeoChiller

NeoTank

Specially designed along with our filters to maximise the efficiency and longevity of InSinkErator® taps, the NeoTank delivers instant steaming hot water. The innovative 2.5 litre design features a digital touch screen thermostat control enabling users to set the water temperature between 88°C and 99°C, the perfect temperature for hot drinks.

NeoTank® dimensions (mm):
Height: 310. Width: 157. Depth: 206

NeoChiller

The high performance under counter NeoChiller is compatible with our 4N1 and the additional HC1100, C1100, HC3010 and HC3020 taps. It dispenses perfectly chilled filtered water with no unpleasant taste and odours. It can dispense up to 7 litres per hour of cold still water between 3°C and 10°C eliminating bottled water or filter jugs, decluttering your kitchen.

RRP: £579

NeoChiller dimensions (mm):
Height: 407. Width: 235. Depth: 260

Our customer service promise

Great product

"Great product, lovely and quiet and does the job. Very pleased with purchase."

LINDA

How did I manage without this?

"Instant hot water = instant tea. Brilliant."

BRIAN SMITH

The best customer service I've ever had...

"The best customer service i've ever had the experience of. They couldn't do enough for me. Fantastic service to go with a great quality product"

BILLY WILLIAMS

Loving our insinkerator

"It's very quiet to run and no more food waste bins to deal with. Great addition to our kitchen"

SUFIAH WALLACE

When you buy InSinkErator® Showroom Collection products, you can buy with complete confidence. Our taps and disposers undergo exhaustive testing to meet both our own and wider industry approvals and standards.

Extended warranties

As a result of our experience of manufacturing and selling kitchen appliances over many years, we are able to offer our customers extended warranties, from five years on our hot taps through to seven and eight years on our disposer models.

If something were to go wrong, it's an easy process and our specialist service agents 'come to you' to make sure your InSinkErator® appliances are working exactly as they should.

We are rated 'Excellent' on Trustpilot
